

ROACH TREATMENT

BEFORE WE TREAT:

- Kitchen:
 - Empty all cabinets, closets, storage areas, and under the kitchen sink. Put all items on table and chairs in the center of the room.
 - Clear all counter tops.
 - Empty all the trash and garbage.
 - Clear the floor.
 - Leave food in the refrigerator.
 - Check dishes, silverware, pots and pans for signs of infestation.
 - Clean stove and oven.

- Living room:
 - Remove clutter.
 - Take articles out of closet.

- Bedrooms:
 - Take drawers out of the bureaus.
 - Put toys and clothes on the bed.
 - Clear out the closets.

- Bathroom
 - Remove items from vanity drawers and cabinets. Put in tub.
 - Clear out under the sink.
 - Remove items from linen closet, including towels, etc. and put in tub.
 - Cover all items in tub.

AFTER WE TREAT:

- Stay out of your home for 4 hours.
- Keep pets out of the home for 4 hours.
- Cover any fish tank and unplug the filter until you return.
- Make sure your children stay out of the home for 4 hours.
- When you return, ventilate (air-out) your home.
- Items may be returned to their proper place when chemicals are dry.
- **Do not wash or wet treated areas for at least 60 days.** Only wash counter tops, stove-top and center of floor. **If the chemical is washed off any other area, a re-infestation will occur, and this will affect your warranty.**
